

# Pediatrics & Therapeutics

Open Access

ISSN: 2161-0665

[www.omicsonline.org](http://www.omicsonline.org)

Pediatrics is the branch of medicine that deals with the medical care of infants, children, and adolescents. The journal focuses on clinical practice and research in pediatrics, surgery, preventive care, pharmacology, and biomedicine. It presents contributions on new developments in all areas of the discipline from pediatricians across the world as well as related molecular genetics, pathophysiology, and epidemiology.

Pediatrics & Therapeutics (Pediatrics) is an international, peer-reviewed journal publishing original research articles. Pediatrics under Open Access Category is a focus of current development in the areas of Pediatrics and Therapeutics.

Pediatrics & Therapeutics addresses all aspects of current developments in the study of Pediatrics. The journal includes authentic information which if promptly available and freely accessible through internet globally, to share the innovations of researchers and scholars for the advancement in the field of Pediatrics.

Pediatrics & Therapeutics - Open Access uses online manuscript submission, review and tracking systems for quality and quick review processing. Submit your manuscript at

<http://omicsgroup.info/editorialtracking/pediatrics/SubmitManuscript.php>
