June 17-18, 2019 Dubai, UAE

Galina Migalko

Universal Medical Imaging Group, USA

The importance of interstitial fluid evaluation in relationship to any health condition

Biography

Galina Migalko brings more than 30 years of excellence in non-invasive diagnostic medical imaging. Her pioneering research in non-invasive whole-body medical diagnosis has set her apart as the World's leader in holistic medical diagnostics. This unique form of testing the complete anatomy, physiology and functionality of the body has saved her patients time, money, unnecessary medical treatments and necessary medical treatments that were unknown as she identifies and then educates her patients in the root causes of their health issues.
