

## 2020 Conference Announcement of 14<sup>th</sup> International Conference on European Immunology

Rude Halefens

Associate Professor, Department of Immunology, Maastricht University, Netherlands, [E-mail: r.halefens@maastrichtuniversity.nl](mailto:r.halefens@maastrichtuniversity.nl)

### Conference Announcement

It's our privilege to invite all the researchers, developers, and experts on behalf of committee members to be the part of the prestigious [European Immunology 2020](#) schedule on November 25-26, 2020 London, UK. We aim to unify all the people indulged in this vast field and share the knowledge, explore and look forward to the new way by integrating new thoughts and customizing the limits of future technology.

[European Immunology 2020](#) offers a dais to take attention to explore, grip and meet with prominent speakers of the field, including both broad and specific subjects. The Molecular Immunology 2019 will be surrounding around the theme "Scrutinizing Progressions in the field of Immunology".

The European Immunology 2020 is designed with the keynote sessions, session lectures, poster presentations, presentations from the young researchers, Panel Discussions, and the B2B meetings with world-renowned speakers from the stream of immunology. It provides the best platform for the researchers to the researchers all over the globe to introduce themselves to the innovative world with their unique research.

### Why to attend?

[European Immunology 2020](#) is aimed the World's leading technical Conferences. The two days event on Immunology & Immunogenetics will host 60+ Scientific and technical sessions and sub-sessions on leading and latest research transformation related to the field, covering the globe. Immunology Conference 2020 will comprise of 25 major sessions designed to offer comprehensive sessions that discourse current topics in the field.

The attendees can find exclusive sessions and panel discussions on the latest innovations in Molecular Immunology & Immunogenetics by:

- Lectures from renowned speakers
- Keynote forums by Prominent Professors, Engineers
- Open Innovation Challenges
- Poster presentations by Young Researchers
- Global Networking sessions with 50+ Countries
- Novel techniques to benefit your research
- Best platform for Global business and Networking opportunities
- Meet the editors of refereed journals, Society and Association members across the Globe

- Excellent platform to showcase the latest innovation and concept in the technical field

### Target Audience:

- Immunologists
- Rheumatologists
- Microbiologists
- Pulmonologists
- Allergists
- Pathologists
- Clinical Immunologists
- Physicians
- Pediatricians
- Virologists
- Biotechnologists
- Immunology professionals
- Infectious diseases treatment doctors
- University Professors
- Various Societies and their members
- Institutes-Medical Schools Students
- Research Scholars
- Laboratory technicians
- Business Entrepreneurs
- Manufacturing Medical Devices Companies
- Companies producing vaccines, GMO's and allergy therapeutics

### Scope & Importance:

[European Immunology 2020](#) will involve significant sessions intended to offer comprehensive sessions that address current issues in Immunology, Allergy, and relevant Biomedical Sciences. The participants can discover Exclusive Sessions and Panel discourses on most recent advancements in Immunology and Biomedical Sciences, Lectures by the dynamic Investigators, Keynote gatherings by Renowned Immunologists, speaker forums, Poster Sessions on most recent Innovation in all the pertinent Areas, Open Innovation Challenges, Poster Sessions on each vocation organize, Young Research Forum, Post-Doctoral Career Development Session, B2B Meetings, Global Networking with 50+ Countries, Novel strategies to profit your exploration, Best stage for Global business and Networking openings, Meet the editors of refereed journals, Society and Association individuals over the Globe, Excellent stage to exhibit the most recent items in Immunology and subsidiaries.

European Immunology 2020 offers a dais to take attention to explore, grip and meet with prominent speakers of the field, including both broad and specific subjects. The Molecular Immunology 2019 will be surrounding around the theme "Scrutinizing Progressions in the field of Immunology". The European Immunology 2020 is designed with the keynote sessions, session lectures, and poster presentations, presentations from the young researchers, Panel Discussions, and the B2B meetings with world-renowned speakers from the stream of immunology. It provides the best platform for the researchers to the researchers all over the globe to introduce themselves to the innovative world with their unique research

European Immunology during November 25-26, 2020 at London, UK at upcoming [European Immunology 2020](#) focus on Immunology. This conference will also present the Advancement in Immunology Research and Prospects of New Therapeutic Strategies. European Immunology 2020 offers a dais to take attention to explore, grip and meet with prominent speakers of the field, including both broad and specific subjects. The Molecular Immunology 2019 will be surrounding around the theme " Scrutinizing Progressions in the field of Immunology". The European Immunology 2020 is designed with the keynote sessions, session lectures and poster presentations, presentations from the young researchers, Panel Discussions, and the B2B meetings with world-renowned

speakers from the stream of immunology. It provides the best platform for the researchers to the researchers all over the globe to introduce themselves to the innovative world with their unique research.

The global immunology market size was valued at USD 77,365.4 Million in 2018 and is projected to reach USD 143,833.2 Million by 2026, exhibiting a CAGR of 8.1% in the forecast period. Existing market players operating in the global immunology market are focusing on constant innovations and up-gradation of their product portfolio with new and efficient product offerings for better treatment outcomes for the patients. One of the primary reasons for the growth of the global market is the increasing incidence of immunological and autoimmune diseases. Rise in awareness regarding immunological diseases in both developing and developed nations, and the higher prevalence of immunological disorders due to environmental factors, thus propelling the of the global immunology market growth. This coupled with, increasing investments by major players in research and development activities are also boosting the growth of the market globally.

Top European Immunology Conferences going to be held during January 2020 to December 2020 at various cities in Europe (London, Berlin, Barcelona, Madrid, Valencia, Rome, Zurich, Dublin.... and in various cities..!!!
