

## 8<sup>th</sup> World Heart Congress scheduled on July 29-30, 2020 at Zurich, Switzerland

**Ahmed Ghanem**

Mansoura University, Egypt, E-mail: [an\\_ghanem@hotmail.com](mailto:an_ghanem@hotmail.com)

Heart is an organ that serves as a pump to circulate the blood. It may be a straight tube, as in spiders and annelid worms, or a somewhat more elaborate structure with one or more receiving chambers and a main pumping chamber, as in mollusks. In fishes the heart is a folded tube, with three or four enlarged areas that correspond to the chambers in the mammalian heart. In animals with lungs-amphibians, reptiles, birds, and mammals the heart shows various stages of evolution from a single to a double pump that circulates blood to the lungs and to the body as a whole.

[Europe World Heart Congress 2020](#) is an event that aims to explore the ways to innovate in the field of cardiology, and to find new procedures for better techniques at Zurich, Switzerland on July 29-30, 2020. The conference will serve as a platform to bring together leading cardiologists with different specialties such as clinical, surgery etc. [World Heart Meeting](#) will discuss on the topics such as clinical cardiology, heart failure, hypertension, arrhythmias, molecular cardiology, cardiac regeneration, cardiovascular engineering, case reports etc.

[Switzerland World Heart Congress 2020](#) supported by the organizing committee network of renowned scientific and professional expert such as **Naranjan S Dhalla** ster, St. Boniface Hospital, Canada, **Sekib Sokolovic**, Bosnia Society of Cardiology, Bosnia and Herzegovina, **Dario Galante**, University Hospital Ospedali Riuniti, Italy, **Smartin Abraham**, Bharath Cardiovascular Institute, India, **Balram Airan**,
