

## Acknowledgement to Editors and Reviewers

### Michael Silbermann

Executive Director & Professor, Middle East Cancer Consortium, Israel, E-mail: cancer@mecc-research.com

Journal of Palliative Care and Medicine is an open access journal currently running successfully 10<sup>th</sup> Volume. This journal has published many innovative research data from all over the world in the form of research, review, case reports and editorial etc in these 10 years.

Journal of Palliative Care and Medicine provides the rapid bimonthly publication of articles in all areas related to improve quality of life, palliative care, cancer care, primary care etc.

The main aim of the Journal of Palliative Care and Medicine (J Palliat Care Med) is to publish high quality research works and provide Open Access to the articles using this platform. The Journal offers a rapid and time bound review and publication that freely disseminates research findings related to palliative care. Journal of Palliative Care and Medicine caters to the requirements of the medical practitioners, researchers, lab professionals, students, academicians, and industry that is involved in Medical and clinical studies. No matter how prestigious or popular; it increases the visibility and impact of published work. It increases convenience, reach, and retrieval power. Free online literature software facilitates full-text searching, indexing, mining, summarizing, translating, querying, linking, recommending, alerting, "mash-ups" and other forms of processing and analysis.

It focuses more broadly on improving life and providing comfort to people of all ages with serious, chronic, and life-threatening illnesses. Palliative care is an approach that improves the quality of life of patients and their families. Palliative care is specialized medical care for people with serious illnesses. It is focused on providing patients with relief from the symptoms, pain, and stresses of a serious illness whatever the diagnosis.

Journal of Palliative Care and Medicine is successfully running its 10<sup>th</sup> Volume. No journal can be successful without the support from

the authors, editorial board members and reviewers. We are hereby grateful for the contribution of authors, editors and reviewers who were taken part in the successful running of this journal.

we count on the informed suggestions of our editors and reviewers to bring out innovative qualitative research and information from the authors. Their advice is so essential to bring out the best from the scholars around the world to help the growth of scientific arena.

We are thanking each and every one who has been part of it.
