Special Thanks for his continuous support and dedication towards the journal will not lost. We the publication office of Global Journal of Nursing & Forensic Studies including me, we all are very honoured and grateful for his selfless devotion towards the journal.

We provide a rapid turn-around time possible for peer reviewing and publishing the article online and to disseminate the articles freely for research, teaching and reference purposes.

Scope of the Journal

The scope includes study and recent advancements of research developments and technologies for better and rapid development in fields of Nursing, Midwifery & Health care.

Forensic Nursing

Forensic Nursing is the application of nursing science to public or legal proceedings. It is the application of the forensic aspects of health care combined with the bio-psycho-social education of the registered nurse in the scientific investigation and treatment of trauma and/or death of victims and perpetrators of abuse

Forensic Mental Illness

Forensic mental health services provide assessment and treatment of people with a mental disorder and a history of criminal offending, or those who are at risk of offending.

Forensic Nursing Science

The science of forensic nursing represents an emerging world view in the future of the forensic sciences as crime and violence bring together the two most powerful systems affecting the lives of people throughout the world – health and justice.
