[Oncology & Cancer](#) conferences always been at the forefront to support and encourage the scientific and techno researchers. [Euro Breast Cancer](#) Conference Committee is glad to announce "11th Euro Breast Cancer and Therapeutics" to be held at Prague, Czech Republic on April 29-30, 2020 working under the theme: Cancer and Therapies: Fight together for a Cancer free World.

We invite all passionate young researchers, young scientists, Young Investigators, Post-Graduate students, Post-doctoral fellows. We are introducing **Young Scientist Awards** an initiative to support early career researchers in their pursuit to advance the frontiers of [Oncology](#), Cancer and its related departments. The young researcher award has been designed to distinguish outstanding young scientists and researchers who have made remarkable contributions in the fields of Oncology, Cancer and [Medical](#). Euro Breast Cancer 2020 will make every effort in providing a professional development opportunity for early career academicians by meeting experts to exchange and share their experiences on all aspects in [Oncology and Cancer](#).

The Young Researchers Forum offers young scientists the possibility to meet and examine explore themes, share and create thoughts, gain from one another and gain learning from senior analysts.

Young Researcher Sessions are sorted out at the [Euro Breast Cancer](#) 2020, to give a one of kind stages to Young Researchers/Investigators for giving most recent research extends an inside and out examination. Euro Breast Cancer 2020 welcomes Young Researchers from Universities/Institutes/Industries to display a short oral introduction amid the discussion. These oral introductions ought to be of 10 minutes term in related logical track pursued by 5 minutes Questions. Accordingly, moderators are urged to give extensive and dynamic talks. Applications will be chosen dependent on past research profitability and future guarantee.

This International Breast Cancer Conference provides the Cancer Researchers an exposure to the newest

developments & cutting edge research in the arena of [Breast Cancer](#) and related fields. This Breast Cancer Summit 2020 provides a common and unique platform, where Cancer experts from both the Industry and Academia can network with each other to promote the collaborative research in the [Breast Cancer](#) segment and can find a cure to this disease.

Any radiologic technologist or radiologist who is hoping to meet the prerequisites put forward by the MQSA for 15 credits in proceeding with training in mammography like clockwork. This course is expected for all radiologists and x-beam technologists with an extraordinary enthusiasm for [Breast Imaging](#). The staff is involved broadly perceived master educators of Breast Imaging with an expansive broadness of experience and information in this field. Medicinal services experts from all training settings who are associated with disease anticipation thought to go to. Offer encounters, improve learning, and produce new thoughts Discover basic components of confirmation based research and general wellbeing programs. Learn new methodologies in epidemiologic techniques and Learn new methodologies in epidemiologic strategies and Discuss imaginative systems to upgrade. Members will incorporate [Epidemiology](#) and laboratory capacity grantees, disease control pioneers, general wellbeing research facilities, and national accomplices. We ask that each ELC-financed purview restrict the quantity of participants to close to five participants, so please facilitate with your ELC Principal Investigator to figure out who ought to go to program reach and effect.

Eligibility

Eligible candidates must be currently involved in research in statistics, probability, or related fields and have contributed considerably to their chosen area. The topic of talk must fit into logical sessions of the meeting. Every individual member is permitted to submit only a single paper. None of the creators ought to have senior position or Faculty position. Members must be underneath the age of 33 years. All entries must be in

English. Effectively appropriate data and advance the advantages of training and vocation matters.

Guidelines for abstract submission:

- Relevant to at least one of the topics under discussion at the Euro [Breast Cancer](#) 2020
- Focused on research in relevant fields
- Age limit-Under 35yrs
- All submissions must be in English
- Written in a way that makes your research accessible to a wider audience
- Accompanied by the following information: your name, photograph, affiliation with a university or other academic institution, contact details and biography.

Benefits

- Young Scientist Award recognition certificate and memento to the winners.
- Our conferences provide best Platform for your research through oral presentations.
- Learn about career improvement with all the latest technologies by networking.
- Young Scientists will get appropriate and timely information by this Forum.
- Platform for collaboration among young researchers for better development.
- Provide an opportunity for research interaction and established senior investigators across the globe in the field.
- Share the ideas with both eminent researchers and mentors.
- It's a great privilege for young researchers to learn about the research areas for expanding their research knowledge.
- Showcase your research through oral presentations.

- Learn about career development and the latest research tools and technologies in your field.
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research.
- Develop a foundation for collaboration among young researchers.
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe.
- Interact and share ideas with both peers and mentors.
- Actively distribute information and promote the benefits of education and career matters.
- Present your Innovation through oral presentation. Find out about Career improvement and the most recent research tools and advances in your field.
- This discussion will give relevant and convenient data to the individuals who Conduct researches and those who use and take advantage from research.
- Build up a foundation for joint effort among young scientists.
- The gathering will give an opportunity to collegial communication with other young researchers and established senior specialists over the globe.
- Interact and offer thoughts with both peers and mentors.
- Effectively circulate data and advance the advantages of training and career matters.
