Conference Series LLC Ltd. is organizing “International Conference on Stress & Mental Health” which is going to be held in the month of October 12-13, 2020 at Perth, Australia. The Theme of the conference is “Leading Innovations and Approaches towards Stress Management & Mental Health”. The conference offers Prestigious Award for Young Researcher’s at Stress Neuro-2020 Gathering the New-born Advances in Neuroscience. Stress-Neuro-2020 invites research scholars & young scientists, to submit the nominations for Young Scientist Awards: Stress-Neuro-2020.

This Stress-Neuro-2020 Young Scientist Awards will be announced at the upcoming “International Conference on Stress & Mental Health” at Perth, Australia on October 12-13, 2020. This Stress-Neuro-2020 is an initiative of Conference Series to recognize and provide incentives to the Young Researchers who has shown great potential at their respective field of research. We at Conference Series always encourage the young budding minds to start their career in the field of research and innovations.

The core of our Young Research Forum–Young Scientist Awards is to motivate the scholars to present their research ideas in front of the global experts and enhance their knowledge at our international platform.

We at Stress-Neuro-2020 provide the best networking experience to the participant for their overall professional growth and to promote the collaborative research. Stress-Neuro-2020 Conference will be an investigation of new research Innovation in the field of Cardiology and spread the most recent advancements in heart disease prevention and rehabilitation. Discussion on new technology advancement in the field of Depression, current practices in Post-Traumatic Stress Disorder, Seasonal Affective Disorder, Social Anxiety,

Sexual Abuse Disorders, Panic Disorder and Trauma, Coronary Thrombectomy, Non-invasive cardiac imaging, Heart failure, Congestive heart failure, Stress and Insomnia and more.

Detecting heart disease and other cardiac conditions, involves a team of healthcare professionals, of which the Cardiology technologist is a key player. The market is mainly driven by the increasing research funding for Anxiety Disorders from governments and private investors, growing demand for personalized medicine in the U.S. and Europe, and the increasing need for toxicology testing.

Encounter the target market with members from across the globe, committed to learn about novel technologies and innovations in Neurotic Depression. This is the best opportunity to outreach the largest gathering of participants from around the world. Conduct presentations, distribute and update knowledge about the advancements in Managing Stress, Child and Adolescent Psychiatry in different fields of Neuroscience by receiving name recognition at this 2-days event. World-eminent speakers, most recent researches, latest treatment techniques and the advanced updates in Neuroscience are the principal features of this conference.
