Sandi James*

Department of Psychology, University of Malaysia, Malaysia

Editorial

The Journal of Addiction Research and Therapy covers most of the topics and incorporates a wide scope of fields, for example, Addiction Recovery, Drug Rehabilitation, Substance-Related Disorders, Facts About Alcoholism, Drug Addiction Treatment, Psychiatric issues behind enslavement, and so forth., in its order to make a stage for the creators to make their commitment towards the journal and the article office guarantees a friend audit process for the submitted original copies for the nature of distributing.

This companion assessed clinical journal is utilizing the Online Submission System for quality in the audit procedure. Online Submission System is an online original copy accommodation, survey, and global positioning framework. Audit preparation is performed by the publication board individuals from the Journal of Addiction Research and Therapy or outside specialists; at any rate, two autonomous commentators endorsement followed by editorial manager endorsement is required for acknowledgment of any citable original copy. Creators may submit original copies and keep tabs on their development through this framework, ideally to distribution. Commentators can download original copies and present their conclusions to the supervisor. Editors can deal with the entire accommodation/survey/reconsider/distribute process.

Journal of Addiction Research and Therapy is a scholastic journal which intends to distribute the most complete and solid wellspring of data on the disclosures and ebb and flow improvements in the method of Research articles, Review articles, Case reports, Short interchanges, and so on in every aspect of the field and making them uninhibitedly accessible through online with no limitations or some other memberships to scientists around the world.

Holistic Addiction Treatment: Chronic drug use is an entangled sickness, and pulls back takes more than honest goals or a solid devotion, since drugs change the cerebrum in manners that support enthusiastic medication misuse, pulls back is troublesome, in any event, for the individuals who are prepared to do as such. Medication treatment is proposed to help dependent characters to stop urgent medication looking and utilization. Treatment can occur in different manners, take a wide range of structures, and keep going for an extensive period. Chronic drug use is distinctively a suffering issue depicted by periodic backslides, a present moment, once treatment is generally not proper.

Heroin Addiction Treatment: All-encompassing enslavement treatment is a serious catchphrase. At the point when the all-encompassing medication and liquor enslavement treatment at a comprehensive recovery community sounds engaging, remember consideration that any program, including a double analysis program, can say it offers all-encompassing clinical treatment, just by remembering any of the accompanying's for its contributions: Acupuncture, Daily exercise, Healthy, and dietary eating routine, Massage treatment, Meditation, Spiritual guiding, Tai-chi, Yoga.

Drug Rehabilitation: Drug rehabilitation is also called drug rehab or simply rehabs, is a way of medically or psychotherapeutic management of the addicted person, for its dependency on psychoactive elements such as alcohol, prescription drugs, narcotic drugs like heroin, morphine, amphetamines (methylphenethylamine). The main purpose of drug rehabilitation is to ensure that the addicted person starts to cease substance abuse, in a way to dodge the psychological, legal, financial, social, and physical concerns; that can be triggered, especially by extreme abuse.
