Conference Series LLC Ltd presents the “Mental Health is a Current Problem, but Recovery is for wellbeing” in Rome, Italy on November 02-03, 2020. The main objective of the conference is to frame networks with individuals from all around the globe so that they can exchange their views, ideas and knowledge in the field of Psychiatric Congress. Psychiatry is such a field which is growing very rapidly with all the new technologies coming up in the market which has a great potential value in the world market. The organisation is providing a magnificent chance to all the leading experts from the field of Psychiatric Congress to explore the department of Psychiatry and Mental Health. Highly affiliated people who attend the summit take the event into a quality international gathering platform to deliver the speech about their experience and accomplishments to the right audience. Conference Series hope this conference can outrun the problems and limitations related to Psychiatry sector by analysing the current scenario of the field of Psychiatry. Psychiatric congress aims to show various new technologies and possibilities from different minds from different people from different parts of the globe. The most appealing part of the conference covers a wide range of exhibitions, symposiums, workshops and scientific sessions.

The Psychiatry Congress 2020 was valued at USD 12.90 billion in 2017; it is projected to grow at a CAGR of 6.7%, over the forecast period from 2017 to 2022. With this CAGR, the market is estimated to

grab a value of US\$70,510.1 Mn by 2022 end. The psychiatric market is gaining traction on the back of booming processed and packaged Psychiatry & Mental Health sector globally. Increasing health consciousness among consumers has led to the change in preference for dietary requirements globally and also in the developing countries. The trend of automation within the psychiatric and Mental Health sector is propelling growth of the global Mental Health equipment market. Owing to the large demand, the Psychiatry and Mental Health segment is likely to achieve value of US\$20,000 Mn by the end of the forecast period.

There is a large, indexed catalogue of lattice constants for many minerals that is available for identification purposes. We are expecting around 50+ Speaker and 100+ delegate participants excluding the students for our Conference.

Psychiatric Congress 2020 is anticipating getting a global audience without segregating the countries based on economic development. For us knowledge is the most powerful tool which cannot be measured by any of the available resources. With great expectations from the globe, Psychiatric Congress 2020 is looking forward to seeing the professions for the upcoming psychiatric congress. We are promised to make you feel, your actual worth of being Psychiatry and Mental Health Professional for this 2 day in November 2020.
